West Plains, Missouri

NO ONE

Expects the same satisfaction, the correct fit, the distinctive "tone" in a suit or dress where the measurements are taken here and sent to some distant city to have the garments made, as is expected where a competent garment maker takes the measure, observes every line of the customer's figure, notes the different postures, the characteristic walk, etc., then with all these in mind DESIGNS AND MAKES the garment. Neither must you be exacting from the man who, after testing your eyes, sends a description of your lenses to some distant city. It is hardly fair to him, because he knows the house to which he sends his order picks out the nearest thing to his description it has in stock—just as the garment house does—sometimes making a little alteration, more often not. This, of course, explains why glasses thus ordered are so often unsatisfactory, causing the disappointed wearers to come to me for prescription lenses—LENSES GROUND UNDER MY PERSONAL SUPERVISION.

HERE you have a right to EXPECT AND DEMAND that absolutely exact correctness unattainable in mail order methods, because here you are privileged to follow your prescription through all its details of grinding UNDER THE EYES AND INSTRUCTIONS OF THE EXAMINER. Is not this the ideal of optical service? It is obtainable ONLY at DONOVAN'S, but be charitable in your demands from the man who has to mail order your glasses.

DR. W. F. DONOVAN, Eyesight Specialist
306 South St., Springfield. "A Year to Try Them."

YOU LOVE TO LINGER

Over a glass of our ginger ale. It has the snap and go to it that tickles your palate and fills you with vim. And there's a reason for it—there's a reason why all our bottled goods are good; and the reason is—purity. Doctors prescribe Ginger Ale; nothing better with that cold. Ask your dealer or send to us if they won't supply you.

The Baryphone

Is a new invention which is on a fair way of revolutionizing the telephone system. As is well known, the American telephone is often very unsatisfactory, but the drawbacks are wholly eliminated by the Baryphone, which makes conversations on the longest distances just as clear as on short circuits as the sound is carried to both ears and all noise excluded. Persons hard of hearing, who hitherto have been prohibited from using the telephone, can now use it with the aid of the Baryphone, which also will permit two persons to hear the message without the use of double telephone. The Baryphone is the only simple, practical and effective sound intensifier in existence and is incomparably superior to all others, especially as it leaves the hand free for annotations during the conversation. Increases the sound wonderfully. Indispensable to all telephone users. Always adjusted. Non-electric. Ever ready. Lasting many years. Sample \$1.00 postpaid. Satisfaction guaranteed or money refunded. Agents wanted everywhere; good terms.
